# AUGMENTED REALITY

in 4 easy steps:

(Figure 1)

1) Scan this QR code using your device's camera

2) Download the Adobe® Aero® app (if prompted)

3) While model loads in app, place a flat object upright on the floor & against desired wall *(Figure 1)*

(Figure 2)

4) After model loads, app will prompt you to look for vertical surfaces. Using your flat object as the anchor, place mobile device's bottom edge on floor and tap screen to anchor the model to the wall *(Figure 2)*
