SURFACE MOUNTED 4C HORIZONTAL MAILBOXES
FRONT LOADING

Made of heavy duty aluminum and stainless steel hardware, Salsbury 3800 series surface mounted 4C horizontal mailboxes are accessed from the front through one or two (2) easy opening master door panels. Surface mounted 4C horizontal mailboxes include a U.S.P.S. approved 4C horizontal mailbox and matching surface mounted enclosure and are available in configurations that are one door wide (single column) and two (2) doors wide (double column). The durable and corrosion resistant units feature a powder coated finish available in four (4) contemporary colors. Surface mounted 4C horizontal mailboxes are available with standard mailbox doors (MB1) that are 13-1/4" W x 3-1/4" H and larger MB2, MB3 and MB4 mailbox doors - see door sizes on page 35. All pre-numbered mailbox doors include a heavy duty cam lock with a dust/rain shield and three (3) keys. Each unit includes a compartment for outgoing mail collection and is labeled “Outgoing Mail”. The outgoing mail compartment includes a weather protection flap and an 11-3/4" W x 3/4" H mail slot. Fully integrated and stand-alone parcel lockers are available in heights ranging from the equivalent of three (3) standard MB1 mailbox doors (PL3 - 10-1/4" high) to six (6) standard MB1 mailbox doors (PL6 - 20-3/4" high). The Salsbury maximum height units (3816D-20) have two (2) fully integrated 15-1/2" high parcel lockers (PL4.5) and twenty (20) standard MB1 mailbox doors and meet the U.S.P.S. 4C requirement of one parcel locker for every ten (10) tenant compartments. Surface mounted 4C horizontal mailboxes provide a convenient means of installing 4C horizontal mailboxes in locations where walls cannot accommodate a recessed mounted installation.

Free-Standing 4C Horizontal Mailboxes

FREE-STANDING 4C HORIZONTAL MAILBOXES
FRONT LOADING

Made of heavy duty aluminum and stainless steel hardware, Salsbury 3900 series free-standing 4C horizontal mailboxes are accessed from the front through one or two (2) easy opening master door panels. Free-standing 4C horizontal mailboxes include a U.S.P.S. approved 4C horizontal mailbox and matching free-standing enclosure and are available in configurations that are one door wide (single column) and two (2) doors wide (double column). The durable and corrosion resistant units feature a powder coated finish available in four (4) contemporary colors. Free-standing 4C mailboxes are available with standard mailbox doors (MB1) that are 13-1/4" W x 3-1/4" H and larger MB2, MB3 and MB4 mailbox doors - see door sizes on page 35. All pre-numbered mailbox doors include a heavy duty cam lock with a dust/rain shield and three (3) keys. Each unit includes a compartment for outgoing mail collection and is labeled “Outgoing Mail”. The outgoing mail compartment includes a weather protection flap and an 11-3/4" W x 3/4" H mail slot. Fully integrated and stand-alone parcel lockers are available in heights ranging from the equivalent of three (3) standard MB1 mailbox doors (PGL3 - 10-1/4" high) to six (6) standard MB1 mailbox doors (PGL6 - 20-3/4" high). The Salsbury maximum height units (3916D-20) have two (2) fully integrated 15-1/2" high parcel lockers (PGL4.5) and twenty (20) standard MB1 mailbox doors and meet the U.S.P.S. 4C requirement of one parcel locker for every ten (10) tenant compartments. Free-standing 4C horizontal mailboxes provide a convenient means of installing 4C horizontal mailboxes in locations where a wall mounted application is not desired or available.

Note: Salsbury 3900 series free-standing 4C horizontal mailboxes include a U.S.P.S. approved 4C horizontal mailbox unit and a matching enclosure. 4C mailboxes are required for new construction and major renovations.

Door panel swings on a continuous hinge. One mailbox opening ("A" and "B" doors only) is required for a master postal or commercial lock and cannot be used for mail distribution. Units include factory installed 3/4" W x 1/4" D trim and a solid rear cover.

If Rear Loading:
Mailboxes can be used for either U.S.P.S. access (master postal lock not required) or private access (master commercial lock not required). All openings are usable. Units include factory installed 3/4" W x 1/4" D trim and a removable rear cover.

PARCEL LOCKERS can be integrated into a 3600 series mailbox system and are a convenient way to receive packages on site. Parcel lockers are fit with a two (2) key security system that allows the U.S.P.S. or an individual to deliver a parcel to the locker and place a parcel locker key in the recipient’s mailbox. Once the recipient opens the parcel locker, the key is automatically retained in the lock until it is removed with a control key.

ORDERING CUSTOM 4B+ HORIZONTAL UNITS
