

Aluminum Mailboxes - Data Distribution System

DATA DISTRIBUTION SYSTEM PRIVATE ACCESS R

Salsbury 2400 series data distribution system aluminum mailboxes have 1/4" thick extruded aluminum doors with a durable powder coated aluminum finish. Each door includes a 3/4" high door slot, a five (5) pin cylinder cam lock with two (2) keys and is hinged horizontally at the bottom. Alternative locking systems are available - see aluminum mailbox options on page 43. Doors are available without slots upon request. The compartments have open backs (rear covers for a column of data distribution mailboxes #2451 and rear covers for individual data distribution mailboxes #2452 are available as options upon request) and are constructed of 20 gauge steel. All units have the same outside dimensions. Data distribution system mailboxes are designed to be installed between rack ladders (#2400). The rack ladders support five (5) units to form a column of boxes.
