

Aluminum Mailboxes - Standard System

continued on pages 38 - 39

STANDARD SYSTEM

REAR LOADING

Salsbury 2200 series standard system aluminum mailboxes have 1/4" thick extruded aluminum doors with a durable powder coated aluminum finish. Each door includes a five (5) pin cylinder cam lock with two (2) keys. Standard system aluminum mailbox units are designed to stack two (2) high and mount adjacent to each other or between wall studs. All units have the same outside dimensions. Alternative locking systems are available - see aluminum mailbox options on page 39. The mailbox compartments have open backs (hinged locking rear covers #2250 are available as an option upon request) and are constructed of 20 gauge steel. Standard system aluminum mailboxes are ideal for use in colleges and schools, private postal centers, government agencies, corporate mailrooms, military bases, police stations and many other applications.

Aluminum Mailboxes - Rack Ladder System

RACK LADDER SYSTEM

REAR LOADING PRIVATE ACCESS R

Salsbury 2200 series rack ladder system aluminum mailboxes have 1/4" thick extruded aluminum doors with a durable powder coated aluminum finish. Each door includes a five (5) pin cylinder cam lock with two (2) keys. The mailbox compartments have open backs (rear covers for a column of rack ladder mailboxes #2251 and for individual rack ladder mailboxes #2252 are available as options upon request) and are constructed of 20 gauge steel. All units have the same outside dimensions. Rack ladder system aluminum mailbox units are designed to be installed between rack ladders (#2200). The rack ladders support five (5) mailbox units to form a column of mailboxes.
