This installation instruction document is for installing the USPS Arrow lock in the access door on the 3700 series Horizontal Mailboxes.

**Note**
The mailbox is shipped without a USPS Arrow lock installed in the access door. This lock must be requested from the USPS and installed by USPS personnel. Call your local post office to request this service.

**Installation**

**Step 1**
Open the access door. Remove six (6) preinstalled locknuts and remove the backup plate, the spacer plate and the door stiffener bracket.

**Step 2**
Install the spacer plate against the stiffener bracket aligning its four (4) holes with the four (4) holes on the stiffener bracket.

**Step 3**
Install the Arrow lock onto the stiffener bracket by sliding the lock bolt through the latch slot. Align the four (4) holes of the Arrow lock with the four (4) holes of the spacer plate and stiffener bracket.

Step 4
Install the stiffener bracket with Arrow lock and spacer plate over the six (6) captive bolts on the access door.

Step 5
Install the back-up plate over the back of the Arrow lock.

Step 6
Install and tighten the six (6) lock nuts onto the six (6) captive bolts. **DO NOT OVERTIGHTEN THE NUTS.**

Step 7
Insert the Arrow lock key into the Arrow lock then retract the lock bolt. Close the access door then lock and unlock the Arrow lock to ensure the lock bolt travels freely. Installation is complete.
