Mail Chests – 4350
Spreader & Pedestal Installation Instructions

Thank you for selecting Salsbury’s 4350 mail chest mailbox. This instruction sheet is for installing the 4350 mail chest on spreaders and a pedestal. Other installation instructions are available for installing the mail chest on a pedestal, or on a deluxe post, installing the mail chest on a newspaper holder, and installing the pedestal in a concrete footing.

When you install a curbside or roadside mailbox, make sure that it is easily accessible to the mail carrier. By regulation a locked mailbox should be 41” to 45” from the ground or street surface up to the point of mail entry. The door should be set back 6” to 8” back from the front face of the curb or the road edge. However, you should check with your local postmaster to ensure that the mailbox is installed according to local regulations. It is important to note that it is not the responsibility of mail carriers to open mailboxes that are locked, accept keys for this purpose, or lock mailboxes after delivery of the mail.

Installing Mail Chests on a Spreader & Pedestal

4382 2-Wide Spreader
All hardware to attach the spreader to the pedestal is included with the spreader. To attach the spreader to the pedestal, install four (4) 5/16”-18 X 1” long hex flange head bolts through the four (4) center square holes of the spreader and through the four (4) tapped holes on the top plate of the standard mailbox post. Cover the hex flange head bolts with cap plugs.

All hardware to attach the mail chests to the spreader is included with the spreader. To attach a mail chest, open the front door or rear door of the mail chest and install four (4) 5/16”-18 x 1-3/4” long carriage bolts through the four (4) square holes in the inside floor of the mail chest, through the square spacer, and through the four (4) corresponding square holes in top of the spreader. Install 5/16” flat washers and 5/16”-18 hex nuts on the ends of the four (4) bolts protruding below the bottom of the spreader. Repeat these steps for the other mail chest. Installation is now complete. Additional hardware provided is not needed and may be discarded.

4383 3-Wide Spreader
All hardware to attach the spreader to the pedestal is included with the pedestal. To attach the spreader to the pedestal requires simultaneously attaching the center mail chest to the spreader and to the pedestal. Start by opening the front door or rear door of the center mail chest and install four (4) 5/16”-18 X 2” long pan head bolts through the four (4) square holes in the inside floor of the center mail chest, through the square spacer, through the four (4) center square holes of the spreader, and through the four (4) tapped holes on the top plate of the pedestal.

All hardware to attach the remaining two mail chests to the spreader is included with the spreader. To attach an additional mail chest, open the front door or rear door of the mail chest and install four (4) 5/16”-18 x 1-3/4” long carriage bolts through the four (4) square holes in the inside floor of the mail chest, through the square spacer, and through the four corresponding square holes in top of the spreader. Install 5/16” flat washers and 5/16”-18 hex nuts on the ends of the four (4) bolts protruding below the bottom of the spreader. Repeat these steps for the other mail chest. Installation is now complete.
Installing Mail Chests on 2-Wide Spreader with Newspaper Holders on a Pedestal

Thank you for selecting Salsbury’s 4350 mail chest mailbox.

This instruction sheet is for installing 4350 mail chests on 2-wide spreaders with 4315 newspaper holders and a pedestal. A different instruction sheet is available for installing 4350 mail chests on a 3-wide spreader with 4315 newspaper holders and a pedestal. Other installation instructions are available for installing the mail chest on a pedestal, or on a deluxe post, installing the mail chest on a spreader, and installing the pedestal in a concrete footing.

When you install a curbside or roadside mailbox, make sure that it is easily accessible to the mail carrier. By regulation a locked mailbox should be 41” to 45” from the ground or street surface up to the point of mail entry. The door should be set back 6” to 8” back from the front face of the curb or the road edge. However, you should check with your local postmaster to ensure that the mailbox is installed according to local regulations. It is important to note that it is not the responsibility of mail carriers to open mailboxes that are locked, accept keys for this purpose, or lock mailboxes after delivery of the mail.

Spreader Installation to Pedestal
All hardware to attach the spreader to the pedestal is included with the spreader. To attach the spreader to the pedestal, install four (4) 5/16”-18 X 1” long hex flange head bolts through the four (4) center square holes of the spreader and through the four (4) tapped holes on the top plate of the pedestal. Cover the hex flange head bolts with cap plugs.

Newspaper Holders Installation to Pedestal
All hardware to attach the newspaper holders to the spreader is included with the spreader. To attach a newspaper holder to the spreader, install four (4) 5/16”-18 X 1-3/4” long carriage bolts through the four (4) square holes in the inside floor of the newspaper holder and through the four (4) corresponding holes on the spreader. Install 5/16” flat washers and 5/16”-18 hex nuts on the ends of the four (4) bolts protruding below the bottom of the spreader. Repeat these steps for the other newspaper holder.

Mail Chest Installation to Newspaper Holders
All hardware to attach the mail chests to the newspaper holders is included with the newspaper holders. To attach a mail chest to a newspaper holder, install four (4) 5/16”-18 X 3/4” long carriage bolts into (4) square holes in the floor of the mail chest and through the four (4) square holes on the top of the newspaper holder. Install 5/16” flat washers and 5/16”-18 hex nuts on the ends of the four (4) bolts protruding below the top of the newspaper holder. Cover the hex nuts with cap plugs. Repeat these steps for the other mail chest. Installation is now complete. Additional hardware provided is not needed and may be discarded.
